SUMMARY

I'm a passionate React.js developer with over three years of experience turning concepts into high-quality, responsive web applications. With a focus on delivering fast, scalable, and intuitive user interfaces, I excel at leveraging the latest React.js features and best practices to create seamless digital experiences

EXPERIENCE

Software Developer

Apr '23 — Aug '24

INNOSOFT DATALINKS PVT.LTD

Bangalore, India

- Collaborated with UX/UI designers to develop visually appealing and user-friendly interfaces. Integrated backend functionality for efficient quiz data storage and retrieval.
- Ensured smooth communication between frontend and backend systems.
- Conducted code reviews to identify optimization opportunities and improve overall code quality.
- Improved initial load time of application by 20% by using **code splitting**.
- Participated in **code reviews** and adhered to best coding practices.

Software Developer

Aug '22 — Mar '23

Neosoft Private Limited

Bangalore, India (Remote)

- Developed a real-time auction-based platform for listing, bidding, and purchasing items. Implemented key features including live bidding, countdown timers, instant notifications, and secure payment gateways.
- Built frontend using React, with Redux for state management, and Node.js for the backend.
- Optimized the platform for high traffic, ensuring efficient handling of concurrent users.
- Provided a scalable, fast user experience for both sellers and buyers.

Software Engineer

Feb '21 — May '22

ENSAR SOLUTIONS PVT LIMITED

Hyderabad, India
